Feesmart Testimonial

We have been using Feesmart for six years, and originally registered to give our clients an alternative and relatively pain free option for spreading payment of their accounting fees on a monthly basis. I was somewhat surprised at the positive response from our clients and many simply continue to take this option year after year, to the point where about 10% of my annual fee base is run through Feesmart.

It is simple to operate and administer, the rates are easily commercially viable, and the team at Feesmart are exceptional. Nothing has ever been a problem for them from day one.

I can certainly recommend them to any business who can make use of their services.
